Annual Report on the Missouri Course Access and Virtual School Program (MOCAP)

December 5, 2023

Statutory Response

1

- Section 161.670, RSMo, effective August 28, 2022, changed the Missouri online learning landscape.
- The administrative rulemaking process was paused until the 2024 legislative session following the May 2023 meeting of the joint committee on administrative rules. Work continues to resolve outstanding questions and concerns.

Teaching & Learning

2

- The MOCAP team is focused on building learning supports and professional development into the new MOCAP website, which is currently under construction.
- A review of course and full-time providers' courses and program reviews is in progress and the statutory review cycle is being followed, providing for "shall provide for continuous monitoring of approved providers and courses." Section 161.670.3(13), RSMo.

Future Focus

3

- Plan for continued expansion and MOCAP staff capacity to maintain adequate oversight and accountability practices.
- Thoughtfully and strategically pilot the Genius Data Management platform that is designed to drive efficiency into the data entry and reporting that is consistently increasing in scale. Data interoperability will increase efficiency and accuracy of MOCAP operations.

Professional Support

- For Online Learning Teachers & Leaders
- For Online Learners & Families

Data Efficiency

- Data Efficiency & Interoperability

- **Combined Passing Rate**—The number of students who completed and passed the course with a 60 percent or higher, divided by the number of students enrolled in the course.
- **Completion Rate**—The number of students finishing a course, regardless of final grade, divided by the total number of students that enrolled in the course.
- **Learning Gains**—Changes in academic achievement over a period of time, usually from one year to the next.

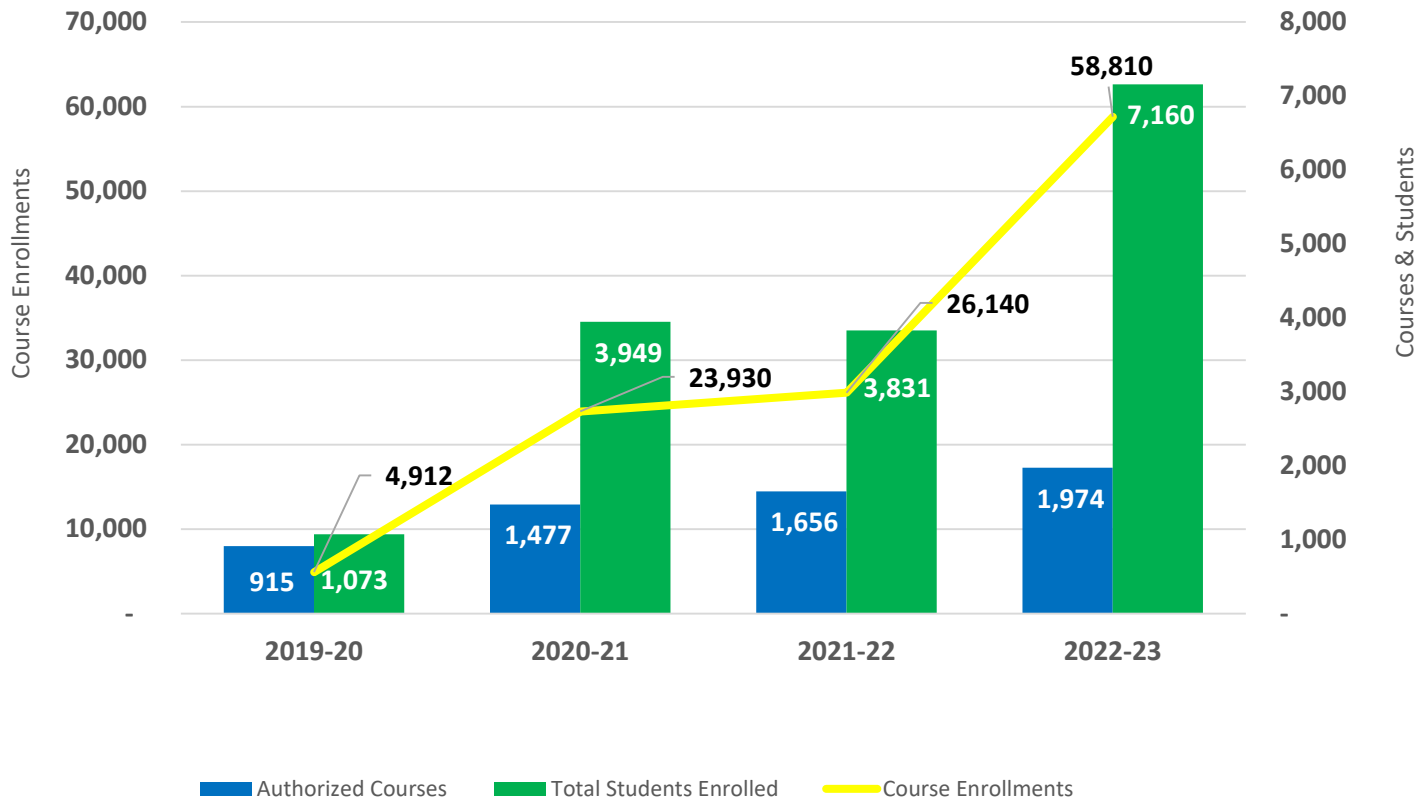

2022-23 MOCAP Overview

2023 MOCAP STATUS	CHANGE FROM 2022 STATUS
7,160 Total Students	↑ 3,329 Students
1,974 Authorized Courses	↑ 318 Courses
58,810 Course Enrollments	↑ 32,558 Course Enrollments
18 Authorized Providers	↑ 4 Providers
85% Completion Rate*	↑ 4% Completion Rate
86% Combined Passing Rate**	↑ 12% Combined Passing Rate

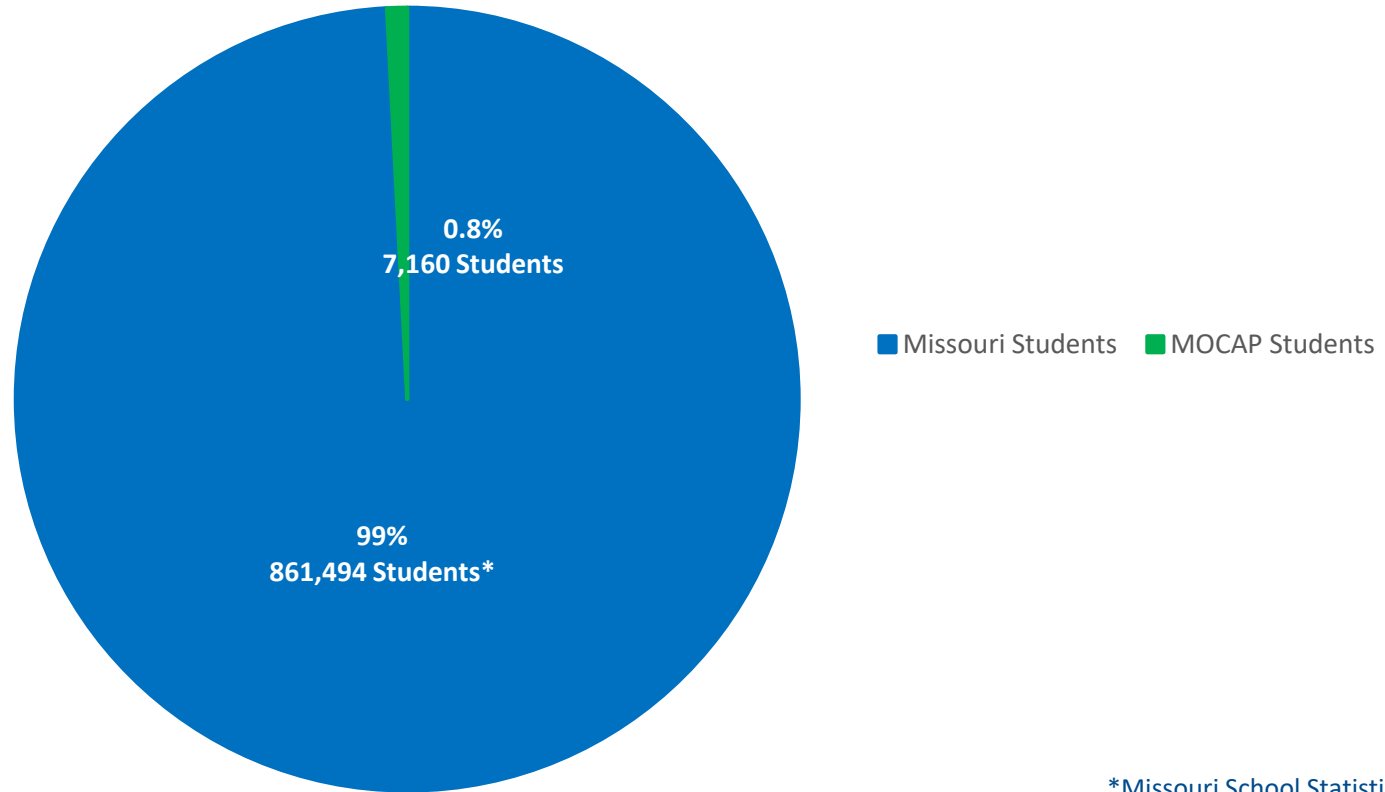

*Reflects the percentage of students who completed the course. ** Reflects the percentage of students who completed and passed the course.

Instruction

83% of respondents agree or strongly agreed they chose MOCAP for the ability to monitor course quality. (4.28/5)

81% of respondents agree or strongly agree they chose MOCAP due to the quality of instruction. (3.94/5)

Course Options

83% of respondents agree or strongly agree they chose MOCAP due to courses available to meet student needs. (4.22/5)

80% of respondents agree and strongly agree they chose MOCAP due to the rigor of courses. (3.98/5)

Oversight

90% of respondents agree or strongly agree they chose MOCAP due to the ability to monitor student progress. (4.42/5)

1

- Continue to strive for compliance and program accountability for Missouri Online Learners.
- Maintain positive relationships with providers, districts, and families.

2

- Look to improve clarity of online information through new website design.
- Drive towards improvement in student learning outcomes on all measures, from course completion, to passing rates, to assessment proficiency.

3

- Complete administrative rule-making.
- Recommend updates to the law.

2022-23 Annual Report on the Missouri Course Access and Virtual School Program

Introduction

The mission of the Missouri Course Access and Virtual School Program (MOCAP) is to offer Missouri students equal access to a wide range of high quality courses, flexibility in scheduling, and interactive online learning. In 2022-23 MOCAP opportunities were expanded through legislative action, providing Missouri students and families both online course options through requests made to their local education agencies (LEAs), and through direct enrollment in full-time online programs hosted by public school districts, charter schools and public higher education institutions. In addition to offering courses taught by Missouri certified teachers, MOCAP providers also offer LEAs courses with curriculum-only options for local issues related to certified teacher shortages, equity of access, or LEAs' desires to expand individualized or flexible learning pathways. The MOCAP catalog offers both part-time and full-time learning, using both synchronous and asynchronous approaches to online learning aligned to Missouri Learning Standards or other nationally recognized standards, including Advanced Placement, Project Lead the Way, and various workforce and career-specific certification programs.

During the 2022-23 school year, the fourth year of MOCAP, the program served about 7,100 students, an increase of about 3,300 students over the previous year. There were over 1,900 courses provided by 18 authorized providers, representing an increase of over 300 courses and four providers in the 2022-23 academic year. There were nearly 59,000 MOCAP course enrollments in 2023, an increase of about 32,500 over the previous year. This report fulfills the Missouri Department of Elementary and Secondary Education's (DESE's) reporting requirements under § 161.670.10, RSMo. This Annual Report is a full disclosing of all available data related to course enrollments, passing rates, and state testing metrics for students participating in the MOCAP program. This report also provides state testing data for MOCAP students who enrolled in courses and for students who were enrolled in full-time MOCAP programs under legislation enacted during the 2022 legislative session, making full-time, hosted providers attendance centers in their LEAs. Further, data for the full-time providers is provided as outlined in the statute as required under § 161.670.3(4)(i), RSMo.

The reader should note that this report addresses only the MOCAP program for the 2022-23 school year. Schools in Missouri may also provide virtual learning to their students outside of MOCAP, either through locally developed courses, contracts with providers, or agreements with each other. Virtual coursework data for these courses are not included in this report.

Definitions

Combined Passing Rate: The number of students who completed and passed the course with a 60 percent or higher, divided by the number of students enrolled in the course.

Completion Rate: The number of students finishing a course, regardless of final grade, divided by the total number of students that enrolled in the course.

Learning Gains: Changes in academic achievement over a period of time, usually from one year to the next.

Passing Rate: The number of students who passed the course with a 60 percent or higher, divided by the number of students that completed the course.

Summary Statistics		
7,160 Total Students	1,974 Authorized Courses	18 Authorized Providers
58,810 Course Enrollments	85% Completion Rate	86% Combined Passing Rate

Table 1

Program and Provider Data

Enrollment and Completion Data

Year-end data verification reports from the courseware providers indicated just over 7,100 students were enrolled in over 58,000 courses during the 2022-23 school year. Eighty-five percent of students completed their courses with 86 percent both completing and passing the courses.

	Students	Enrolled Courses	Courses Completed	Completion Rate	Courses Passed	Combined Passing Rate

Table 2

MOCAP Student Demographics

In 2022-23, legislation provided for the reporting of student demographic information in the MOCAP annual report for full-time hosted MOCAP students. Full-time MOCAP students were included in student enrollment of the LEA and LEAs reported student information to the Department of Elementary and Secondary Education as part of Core Data and MOSIS data reporting cycles for which all Missouri public and charter schools are accountable. The demographic regarding free or reduced price meals, English learning students, students receiving special education services under an Individual Education Plan (IEP) or a Section 504 Plan are used in the weighting calculation for state funding. The certified teacher information is provided to MOCAP by providers to verify that all MOCAP courses are being taught by Missouri certified educators assigned to courses they are appropriately certified to teach. It is important to note that MOCAP students may enroll from numerous prior educational institutions. The three categories of enrollment represented in the chart below identifies the most common educational common prior educational entities from with MOCAP students enrolled.

The data in the proceeding charts is provided by MOCAP providers to the MOCAP state office and represents the providers' self-reported information.

Race, Ethnicity, Special Programs, and Enrollment Characteristics

	Hispanic	Asian	Indian	Pacific Islander	Black	Multiracial	White	TOTAL

Table 6

Host District Payments

In 2022-23, legislation provided for the distribution of state school aid to host LEAs for full-time MOCAP students. Full-time MOCAP students were included in student enrollment of the LEA and LEAs received an amount per student enrollment equal to the state adequacy target multiplied by the average daily attendance of the full-time MOCAP students.

MOCAP HOST DISTRICT	FY23 TOTAL PAYMENTS
STURGEON R-V	\$7,003,355.06
ST. JOSEPH	\$57,375.00
SPRINGFIELD R-XII	\$2,550,000.00
LEE'S SUMMIT R-VII	\$44,625.00
GRANDVIEW R-II	\$12,794,625.00
LAQUEY R-V	\$1,542,750.00
MEHLVILLE R-IX	\$573,750.00
UNIVERSITY OF MO - COLUMBIA	\$6,375.00
TOTAL-ALL PAYMENTS	\$24,572,855.06

Table 7

Equitable Access to Coursework

Parent survey results indicated that coursework options not available locally - especially Advanced Placement (AP), honors, and elective courses - were often cited as the reason for wanting to access MOCAP courses. World languages, technology courses, and career exploration electives were the most common electives mentioned by parents that expanded the course offerings for their students. With the exception of advanced core classes, core offerings tended to be redundant to those already available to students. On average, parents estimated that 20 percent of courses taken were not available to students locally. Table 8 shows examples of the courses students were able to access through MOCAP that they might not have had access to otherwise.

AP and Honors Courses	College and Career Electives
Biology	3D Modeling

Table 9

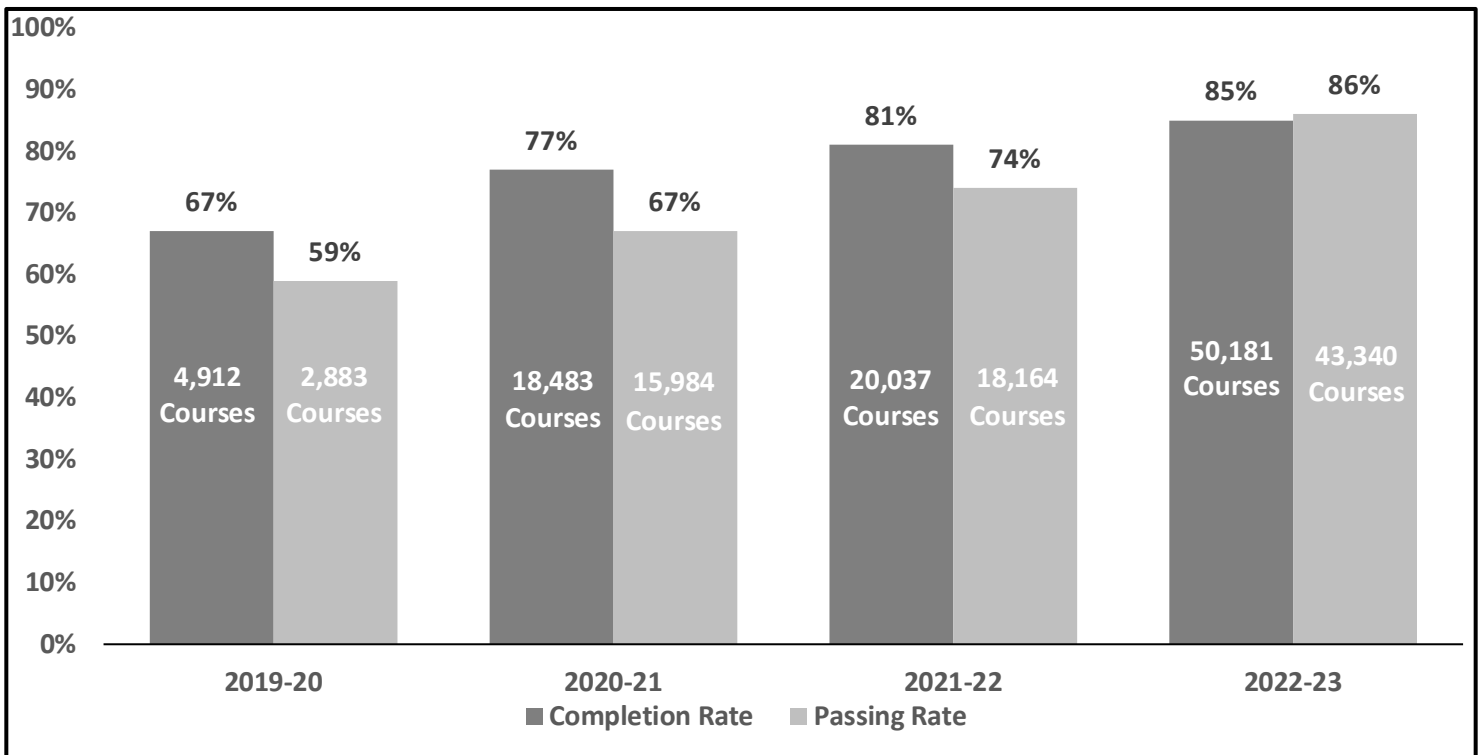

Student Outcome Data

A primary set of statistics used in this report is enrollment counts, completion rates, and passing rates. Enrollment counts indicate the degree to which courses are of interest to students and generate student selection and enrollments. Completion rates indicate the degree to which students persist to the end of the course, regardless of their final grade. Passing rates indicate the degree of success students realize in a course, as measured by the course grade of 60 percent or higher, divided by the number of students who completed the course.

Also included in the data are state assessment results for MOCAP students. Statute requires, and good educational practice advises, that learning gains be used in the MOCAP program evaluation. Learning gains show a student's academic growth over a period of time, usually from one year to the next. After establishing baseline data for MOCAP students' state assessment results in the 2020-21 year, the 2022-23 data represents the third year of data representative of trend data of students' performance over time. The data also includes the first year of data for full-time, hosted MOCAP providers whose state assessment data is calculated, by order of statute, into an annual performance report (APR) score calculation for the provider's attendance center within the host district and as part of the host district's APR score.

Table 22

MOCAP Student Test Data

State assessment results demonstrated low proficiency compared to Missouri state averages. There was significant improvement over state assessment 2022 participation rates, which averaged 83%, 82%, and 86% for ELA, mathematics, and science, respectively. MAP and EOC performance lagged, falling from previous proficiency rates and trailing state averages by wide margins. Full-time MOCAP providers provided realistic feedback that student performance on state assessments had contributing variables, including assessment different than the mode of instruction and assessment fatigue, since MOCAP full-time students had to travel to a physical testing site to test. Most students took more than one MAP test in a single day, when their in-person peers take a single MAP test over multiple days. This led students to a goal of completion rather than quality of effort, as endurance for multiple formal assessments in a single setting is challenging for students whether educated in person or online.

MOCAP ACT® Data

Three hundred thirty-one seniors enrolled in MOCAP courses, so the ACT® composite average represents data from 53% of the Class of 2023 MOCAP cohort having participated in the ACT® and having an ACT® score reported in the ACT® Score Report. This is slightly below the Missouri 2023 cohort ACT® participation rate of 66%.

	Number of Students Tested	Average ACT® Composite	Number of Students in Cohort	Percent of Cohort Taking ACT®
Class of 2023 MOCAP	331	19.9	628	53%
Any Grade MOCAP	604	19.6	-	-
Class of 2023 Missouri*	41,563	19.5	61,421	58%
Class of 2023 National*	1,386,335	19.5	4,201,015	37%

Table 39

	English Composite	Math Composite	Reading Composite	Science Composite	Composite Average
MOCAP-Any Grade	18.8	19.0	20.7	20.0	19.6
MOCAP Class of 2023	19.2	19.2	21.3	20.1	19.9
Missouri Class of 2023	18.4	18.9	20.2	19.8	19.5
National Class of 2023	18.6	19.0	20.1	19.6	19.5

Table 40

Summary of Surveys

The Department collected feedback from parents/guardians who had students enrolled in MOCAP courses. The survey included client satisfaction measures and perceptual data to help determine reasons for enrollment in the MOCAP course or full-time programs at the statewide and district levels. The analysis provided herein indicates trends. The surveys utilized a five-point Likert scale ranging from “strongly disagree” to “strongly agree.” The figures below are averages of all responses. The LEA survey was not administered during this reporting period.

Feedback from Parents/Guardians*

Responses		Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	MOCAP Weighted Avg.
Ability To Monitor Course Quality	237	0%	4%	13%	32%	51%	4.28
Courses Available Meet Student’s Needs	247	1%	4%	12%	38%	45%	4.22
Ability To Monitor Student Progress	237	0%	3%	7%	33%	57%	4.42
Quality Of Instruction	237	0.4%	3%	6%	35%	46%	3.94
Rigor Of Courses	237	1%	1%	10%	35%	45%	3.98
Percentage of courses completed by students not offered in school of residence or prior enrollment				Response Average: 21% of courses			

Table 41

Summary and Conclusions

During the 2022-23 academic year, MOCAP shifted significantly due to legislative initiative. MOCAP providers who opted to become full-time, hosted providers were paid by their host district through state aid allocations paid to host districts; full-time MOCAP students became residents of the host district, removing physical boundaries to district enrollments. The program grew significantly through this change, with the full-time providers realizing significant enrollment growth and most course providers seeing course enrollments decline. Another likelihood for this growth in enrollment came due to parents and guardians being able to enroll students directly into full-time hosted MOCAP programs without having their resident districts evaluate their request for online learning through the lens of educational best interest. MOCAP course enrollment requests are still made to resident districts and use educational best interest as a criteria for approval.

State assessment performance lagged, falling from previous levels and trailing state averages by a wide margin. Full-time MOCAP providers provided feedback to MOCAP program leaders that student performance on state assessments had contributing variables, including assessment different than the mode of instruction and assessment fatigue, since MOCAP full-time students had to travel to a physical testing site to test. Most full-time MOCAP students took more than one MAP test in a single day, leading to student fatigue.

Both student and course enrollment metrics increased in 2022-23 and were the highest since the program's inception. As new providers and host districts continue to join the MOCAP cohort, it is likely this trajectory will continue. As the program continues to grow, the MOCAP team seeks to provide appropriate supports for MOCAP providers and host districts, working to learn how to best support the leaders and educators who are serving the online learners in Missouri.

Appendix A - Approved Courses by Provider

Enrollment figures in the courses on the following pages are calculated from monthly progress reports provided by the providers.

Note that enrollment data is provided by semester. If enrollment data is given as “8”, for example, that means that there were a total of 8 semester enrollments during the 2022-23 academic year.

Fields, if available, include:

- Course Name
- Grade Level (K-12)
- Type of Credit/Subject (ELA, Science, Electives, Etc.)
- MOSIS Course ID
- NCAA Approved (Yes or No)
- Prerequisites (Yes or No)
- Number of Semesters (1, 2, or full year (FY))
- Per Semester With Teachers Cost
- Per Semester Curriculum Only Cost
- Per Year With Teachers Cost
- Per Year Curriculum Only Cost
- Materials and Book Cost
- Enrollment Numbers
